

matt stubbings

About

Self-taught multi-disciplinary designer helping build brands and lead with design first.

These introduction blurbs always feel a little self aggrandizing, so yeah that's it.

Experience

Lead Digital Designer

02/2019 - Present

Black Sun | London, UK

Leading the digital design team from Pitch to prototype.

- Designed award winning Corporate websites for Brands such as Coca-Cola Hellenic, Associated British foods, Temasek Holdings and Inmarsat. Among the many smaller clients we help.
- Won Gold(2021) and Silver(2022) for Burberry Online annual report.
- 2x Gold win Best Corporate website Associated British Foods(2022)
- 2x Gold win best Website and best Design, Inmarsat(2021)
- Global B2B Website of the Year(2021) - Coca-Cola Hellenic
- Keeping clients happy 24/7

Head of Design

10/2015 - 12/2019

evesleep | London, UK

Guiding and innovating the visual identity of eve as a brand through all media and digital channels, while leading a team of designers.

- Lead the design and creation of our digital design system used with in-house development team, helping to streamline workflow and improve design consistency across the site.
- Collaborated with agency partners on creation and design direction of "dancing sloth" ad campaign.
- Lead in the redesign of the entire site from the ground up starting with the homepage and product pages through to the checkout and CRM experiences.
- Created the first style guide for the brand to ensure consistency when working with external partners, solidifying the brand identity and recognition.

Interactive Designer

03/2015 - 09/2015

UNION Advertising | Toronto, CA

Digital Designer working on Brands such as INFINITI, Best Buy, Triscuit and more. Working with traditional and well as social mediums of advertising.

Designer/Developer/Art Director

11/2012 - 02/2015

Ogilvy & Mather | Toronto, CA

- Worked on the digital presence of brands such as Dove, American Express, IBM and Tim Hortons.
- Designed a bespoke website for IBM as part of a digital campaign to remix food recipes, built within their design system using their Watson AI technology.
